THE FUTURE BELONGS TO AUTOMATIC DOCUMENT PROCESSING SOLUTIONS

BENEFIT FROM A SMART, SIMPLE SERVICE

Sensaas is an intelligent *a la carte* service that lets you manage the complete lifecycle of your company's documents electronically including invoices, purchase orders, contracts, HR files, in fact, forms of all kinds. With Sensaas, or Software As A Service, document processing is faster, and more cost efficient.

SENSAAS IS SENSATIONALLY SIMPLE TO USE

SEND DOCUMENTS	EXTRACTION	VERIFICATION	APPROVAL	RETRIEVAL
				
Transmit documents via a web-based portal: <ul style="list-style-type: none">- Scanner- Email- Fax	Content is automatically extracted from the document	Extracted data is verified to ensure optimum quality	Document approval process is carefully managed	Retrieve formatted data via web-based portal for integration in your software system

According to the Aberdeen Group, today's outstanding organizations confirm they have reduced invoicing processing costs by 91% through the use of automated solutions.

SAVE TREES, TIME AND MONEY

- * Process documents 5 to 10 times faster than you do now
- * Optimize information access and sharing
- * Reduce the cost of manual data entry
- * Avoid document loss and classification errors
- * Improve document traceability

Sensaas is a step in the right direction for every organization poised to reap the rewards of a robust, reliable software solution, while avoiding the constraints and costs usually associated with such a move. And all you need to access Sensaas is a low volume scanner and an Internet connection.
